This letter discusses nexus and Service Occupation Tax issues. See 86 III. Adm. Code 150.201. (This is a GIL).

October 31, 2002

Dear Xxxxx:

This letter is in response to your letter received by our office on September 5, 2002. The nature of your letter and the information you have provided require that we respond with a General Information Letter, which is designed to provide general information, is not a statement of Department policy and is not binding on the Department. See 2 III. Adm. Code 1200.120 subsections (b) and (c), which can be found on the Department's website located at http://www.revenue.state.il.us/Laws/regs/part1200/.

In your letter, you have stated and made inquiry as follows:

AAA is a public accounting firm in CITY/STATE. We represent a client who has operations as described below. We are in the process of determining the client's corporate tax and sales tax filing requirements in certain states. We are writing to you for clarification of your states filing requirements, if any for our client.

Description of Services

Our client provides mystery shopping services for major corporations. They do not sell any products or tangible goods, they simply provide services. In addition, all of the mystery shopping services are performed by independent contractors and are paid accordingly. STATE is the only state in which our client employs personnel. All services in your state are performed by independent contractors. In addition, our client only engages an independent contractor in your state very few times a year, sometimes as few as one time.

We are trying to determine the following:

- 1. Does our client have Nexus in your state?
- 2. Does the situation change if the headquarters of the corporation that has employed our client is located in that state?
- 3. What filing requirements, if any, does my client have with regards to your corporate tax?
- 4. What filing requirements, if any, does my client have with regards to your sales tax?

You can respond to the address listed below.

If you have any questions, please call me at the numbers listed on this letter. We are trying to ensure that our client complies with all state regulations and appreciate your assistance. Thank you.

DEPARTMENT'S RESPONSE:

This letter will only discuss any sales tax issue you have inquired about. The Income Tax Division of our office will be answering your Illinois income tax questions in a separate letter. In the context of a General Information Letter, the Department is unable to make nexus determinations because the amount of information required to make that determination is often best gathered by an auditor. The following information outlines the principles of nexus. We hope it is helpful to you in determining whether you are responsible to pay tax in Illinois.

An "Illinois Retailer" is one who either accepts purchase orders in the State of Illinois or maintains an inventory in Illinois and fills Illinois orders from that inventory. The Illinois Retailer is then liable for Retailers' Occupation Tax on gross receipts from sales and must collect the corresponding Use Tax incurred by the purchasers.

Another type of retailer is the retailer maintaining a place of business in Illinois. The definition of a "retailer maintaining a place of business in Illinois" is described in 86 Ill. Adm. Code 150.201(i), enclosed. This type of retailer is required to register with the State as an Illinois Use Tax collector. See 86 Ill. Adm. Code 150.801, enclosed. The retailer must collect and remit Use Tax to the State on behalf of the retailer's Illinois customers even though the retailer does not incur any Retailers' Occupation Tax liability.

The United States Supreme Court in Quill Corp. v. North Dakota, 112 S.Ct 1904 (1992), set forth the current guidelines for determining what nexus requirements must be met before a person is properly subject to a state's tax laws. The Supreme Court has set out a 2-prong test for nexus. The first prong is whether the Due Process Cause is satisfied. Due process will be satisfied if the person or entity purposely avails itself or himself of the benefits of an economic market in a forum state. Quill at 1910.

The second prong of the Supreme Court's nexus test requires that, if due process requirements have been satisfied, the person or entity must have physical presence in the forum state to satisfy the Commerce Clause. A physical presence is not limited to an office or other physical building. Under Illinois law, it also includes the presence of any agent or representative of the seller. The representative need not be a sales representative. Any type of physical presence in the State of Illinois, including the vendor's delivery and installation of his product on a repetitive basis, will trigger Use Tax collection responsibilities. Please refer to <u>Brown's Furniture, Inc. v. Wagner</u>, 171 Ill.2d 410 (1996).

The final type of retailer is the out-of-State retailer that does not have sufficient nexus with Illinois to be required to submit to Illinois tax laws. A retailer in this situation does not incur Retailers' Occupation Tax on sales into Illinois and is not required to collect Use Tax on behalf of its Illinois customers. However, the retailer's Illinois customers will still incur Use Tax on the purchase of the out-of-State goods and have a duty to self-assess their Use Tax liability and remit the amount directly to the State.

You mentioned in your letter that your client provides services and does not sell any products or tangible personal property goods. Illinois Retailers' Occupation and Use Taxes do not apply to sales of service that do not involve the transfer of tangible personal property to customers. However, if tangible personal property is transferred incident to sales of service, this will result in either Service Occupation Tax liability or Use Tax liability for the servicemen depending upon his activities. For your general information we are enclosing copies of 86 Ill. Adm. Code 140.101 through 140.109 regarding sales of service and Service Occupation Tax.

Under the Service Occupation Tax Act, businesses providing services (i.e. servicemen) are taxed on tangible personal property transferred as an incident to sales of service. See the enclosed copy of 86 III. Adm. Code 140.101. The purchase of tangible personal property that is transferred to the service customer may result in either Service Occupation Tax liability or Use Tax liability for the servicemen depending upon his activities. The serviceman's liability may be calculated in one of four ways: (1) separately stated selling price of tangible personal property transferred incident to service; (2) 50% of the servicemen's entire bill; (3) Service Occupation Tax on the servicemen's cost price if the servicemen are registered de minimis servicemen; or (4) Use Tax on the servicemen's cost price if the servicemen are de minimis and are not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act.

Using the first method, servicemen may separately state the selling price of each item transferred as a result of the sale of service. The tax is then calculated on the separately stated selling price of the tangible personal property transferred. If the servicemen do not separately state the selling price of the tangible personal property transferred, they must use 50% of the entire bill to the service customer as the tax base. Both of the above methods provide that in no event may the tax base be less than the servicemen's cost price of the tangible personal property transferred. See the enclosed copy of 86 III. Adm. Code 140.106.

The third way servicemen may account for their tax liability only applies to de minimis servicemen who have either chosen to be registered or are required to be registered because they incur Retailers' Occupation Tax liability with respect to a portion of their business. See the enclosed copy of 86 III. Adm. Code 140.109. Servicemen may qualify as de minimis if they determine that the annual aggregate cost price of tangible personal property transferred as an incident of the sale of service is less than 35% of the total annual gross receipts from service transactions (75% in the case of pharmacists and persons engaged in graphics arts production). Servicemen no longer have the option of determining whether they are de minimis using a transaction by transaction basis. Registered de minimis servicemen are authorized to pay Service Occupation Tax (which includes local taxes) based upon their cost price of tangible personal property transferred incident to the sale of service. Such servicemen should give suppliers resale certificates and remit Service Occupation Tax using the Service Occupation Tax rates for their locations.

The final method of determining tax liability may be used by de minimis servicemen that are not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act. Such de minimis servicemen handle their tax liability by paying Use Tax to their suppliers. If their suppliers are not registered to collect and remit tax, the servicemen must register, self-assess and remit Use Tax to the Department. The servicemen are considered to be the end-users of the tangible personal property transferred incident to service. Consequently, they are not authorized to collect a "tax" from the service customers. See the enclosed copy of 86 III. Adm. Code 140.108.

I hope this information is helpful. The Department of Revenue maintains a website, which can be accessed at www.revenue.state.il.us. If you have further questions related to the Illinois sales tax laws, please contact the Department's Taxpayer Information Division at (217) 782-3336.

If you are not under audit and you wish to obtain a binding Private Letter Ruling regarding your factual situation, please submit all of the information set out in items 1 through 8 of Section 1200.110(b) described above.

Very truly yours,

Terry D. Charlton Associate Counsel
